Every Duo-Art is a piano of high quality either for hand playing or practice; unaltered in tone or action by its reproducing feature.

The five famous pianos in which the Duo-Art may be had are the Steinway, Steck, Wheelock, Stroud and magnificent Weber.

As a Pianola the Duo-Art offers to the lover of music who does not perform by hand, the opportunity to play the piano himself.

With the use of any 88-note music-roll, after a short period of practice, most artistic and satisfying results may be obtained.

Illustrated above is the Stroud Foot-Impelled Duo-Art Piano. Piano, Pianola, Reproducing Piano in one.

The DUO-ART
Reproducing Piano

The Duo-Art Piano is the 20th Century development of the Piano. It is the wonderful means by which the great musicians can enter your home to give you of their best—right at your own fireside

IMAGINE, if you can, your piano ringing with the marvelous touch of the great Paderewski! Think of the fingers of the great masters stealing over the keys as you sit and listen—pouring forth for you the genius and art that only they possess! The greatest piano masters of the world—Paderewski, Hofmann, de Pachmann, Bauer, Cortot, Friedman, Gabrilowitsch, Grainger, Ganz, and scores of others have made Duo-Art Record-Rolls, which are available for anyone who owns a Duo-Art Piano.

Think of the greatest classics of all time being executed with most brilliant artistry on your piano!

Think of accompaniments played with perfect sympathy, so that one who sings may always have an accompanist at hand. Picture having plenty of splendid dance music—ever ready, tireless—perfect in rhythm—the latest fancies from musical comedies and operas!

This wonderful Duo-Art Reproducing Action brings to your home the Music of the Masters. As it sounds when their fingers touch the keys, so you hear it at home—it is their art in all its perfection.

The Duo-Art Is Also a Pianola

Consider what a delightful thing it is to play yourself without years given to the study of an instrument—without

any great natural talent! The Duo-Art Piano is also a Pianola—and with the enormous variety of music-rolls available you can play any and all music; simply guiding the tempo, volume and accent yourself.

The Pianola has brightened many a home—has disclosed many latent musical talents. It has been the second great step in the development of that great home instrument—the Piano.

A Pianoforte of High Quality

Remember, too, the Duo-Art is a regular piano for hand playing; that any member of your family who plays or wishes to study and practice will find its tone and action unchanged by its two other great features. For those who play by hand the Duo-Art Piano holds added inspiration. Through the Artists' Record-Rolls the actual playing of the great pianists can be studied at close range. Their art may be your goal.

Duo-Arts are obtainable in the exquisite Steinway—in the fine, durable Steck—in the well-known Wheelock and Stroud, moderately priced and of excellent quality—and in the world-famous, rich-toned Weber. The Duo-Art is made in both Grand and Upright models, it is obtainable operated by both foot power and electricity.

The price of the foot-impelled Duo-Art is only a little more than an ordinary player-piano of similar quality. A small down payment will place one of these magnificent instruments in your home—the balance may be paid upon
